Applicant Information

Organization Name Santa Barbara County Water Agency - *

Tax ID 956002833

Proposal Name Santa Barbara County IRWM Plan 2012 *

Proposal Objective

The objective of this proposal is to update the existing Santa Barbara IRWM Plan (2007) to be compliant with new Prop 84 IRWM plan standards and facilitate planning and projects to actualize regional objectives. This proposal will portray the status of current IRWM planning, where it is not compliant with standards, and the plan to upgrade it to new standards. Santa Barbara County IRWM Plan 2012 (IRWM Plan 2012) will guide integrated regional water management planning and projects in the region. It will consider and meld Prop 84 Program Preferences and Statewide Priorities with regional issues and objectives. This document will provide support for IRWM activities that include, but are not limited to, the following: Stakeholder outreach; Consensus-building on regional issues and objectives; Selection of projects that move the region toward achieving regional objectives and utilize resource management strategies; Coordination of climate change actions; Securing funding to support regional projects, and Executing projects in accordance with DWR Proposition 84 requirements. It will provide the framework for planning and project delivery that includes governance, data management, plan performance and monitoring, technical analysis, and coordination with other regional land use and water planning efforts. The IRWM Plan 2012 will move the region toward reaching the objectives of increasing water reuse and conservation; increasing operational efficiency and supply reliability; increasing water supply; improving the management of groundwater basins through conjunctive use; improving flood management; improving water quality, and protecting and restoring ecosystems. *

Section : Applicant Information and Question's Tab**APPLICANT INFORMATION AND QUESTION'S TAB****APPLICATION TYPE**

Is this an application for a Regional Planning Grant or an Interregional Planning Grant?

- a) ☒ Regional Planning Grant
b) ☐ Interregional Planning Grant

Q1. PROPOSAL DESCRIPTION

Provide a brief abstract of the Proposal. Please note if the Proposal will facilitate or support the participation of DAC's in the IRWM planning effort.

Santa Barbara County IRWM Region developed and adopted the current IRWM Plan in May 2007. This proposal (planning grant application) will update the existing plan and be known as the Santa Barbara County IRWM Plan 2012 (IRWM Plan 2012). It will be compliant with all standards including: regional issues and objectives; stakeholder outreach; watershed planning and management efforts; impacts and benefits; adaptation and mitigation measures relevant to climate change; data management; and the project selection process. In addition, the proposal also includes two focused planning studies that move toward actualizing select regional objectives: 1) Groundwater Basin Assessment in Support of Salt and Nutrient Management Planning and 2) South Coast Subregion Recycled Water Development Plan. This proposal and the projects within the IRWM address several Program Preferences, including: 1. Includes regional projects ??? in this proposal there is a groundwater basin assessment that will serve as a model for a regional salt and nutrient management plan and a study to support the increase of recycled water use in the South Coast sub-region. 2. Resolves Significant Water-Related Conflicts ??? the plan will move toward resolving conflict between urban and agricultural water users over water quality problems in the Santa Maria Groundwater Basin (aforementioned groundwater basin assessment) and conflict over water supplies and ocean water quality in the South Coast sub-region (aforementioned recycled water study) 3. Contributes to attainment of the CALFED objective of water supply reliability ??? the South Coast Recycled Water Development Plan and Guadalupe Recycled Water Study will lead to decreased reliance on imported water supplies from the Bay-Delta and increased regional self-sufficiency 4. Addresses a critical water quality need of a DAC ??? the City of Santa Maria is a DAC and the aforementioned groundwater basin assessment in support of a salt and nutrient management plan will serve to improve water quality of the basin 5. Addresses several Statewide Priorities including: (a) Drought Preparedness (e.g., water conservation projects throughout the region, efficient groundwater basin management, water recycling expansion in the South Coast Basin); (b) Use and Reuse Water More Efficiently (water conservation projects and water recycling projects); (c) Climate Change ??? project selection will include measures to adapt to climate change and reduce GHG emissions and energy consumption; (d) Expand Environmental Stewardship ??? projects will protect the watersheds of the Santa Maria River (e.g., salt and nutrient management planning), Santa Ynez River Watershed (e.g., arundo removal), and South Coast (e.g., tertiary treatment plant upgrade, Mission Creek restoration, and San Jose Creek fish passage); (e) Practice Integrated Flood Management (e.g., San Jose Creek Fish Passage Project); (f) Protect Surface Water and Groundwater Quality (e.g., sewage conveyance system upgrades, restoration projects around Cachuma Reservoir); and (g) Ensure Equitable Distribution of Benefits (multi-benefit projects for DACs including Guadalupe, Lompoc, Santa Maria, Cuyama) A crucial goal for the region has been to facilitate and support the involvement of DACs in the process and project development. Multiple processes and procedures are in place to promote access to and collaboration with DACs in the region. There are currently five DACs that are active members of the RWMG. During the Proposition 50 process, three DAC projects were selected for inclusion in the implementation grant. A DAC project will be included in the first round Implementation Grant.

Q2. PROJECT DIRECTOR

Provide the name and details (including email) of the person responsible for executing the grant agreement for the applicant. Persons that are subcontractors to be paid by the grant cannot be listed as the Project Director.

Matt Naftaly, Water Agency Manager, Santa Barbara County Water Agency, 123 E. Anapumu St., Santa Barbara, CA 93101-2058, mnaftal@cosbpw.net, 805-568-3542

Q3. PROJECT MANAGEMENT

Provide the name and contact information (including email) of the Project Manager from the applicant agency or organization that will be the day-to-day contact on this application.

Matt Naftaly, Water Agency Manager, Santa Barbara County Water Agency, 123 E. Anapumu St., Santa Barbara, CA 93101-2058, mnaftal@cosbpw.net, 805-568-3542

Q4. APPLICANT INFORMATION

Provide the agency name, address, city, state, and zip code of the applicant submitting the application.

Santa Barbara County Water Agency, 123 E. Anapumu St., Santa Barbara, CA 93101-2058

Q5. ADDITIONAL INFORMATION

Based on the region's location, what are the applicable DWR regions (Northern, North Central, South Central, and/or Southern)? The following link can be used to view each DWR region office boundaries:

http://www.water.ca.gov/groundwater/groundwater_basics/gw_contacts_info.cfm

- a) ☐ Northern Region
 b) ☐ North Central Region
 c) ☐ South Central Region
 d) ☒ Southern Region

Q6. ADDITIONAL INFORMATION

List the name of the Regional Water Quality Control Board (RWQCB) in which your project is located. For a region that extends beyond more than one RWQCB boundary, list the name of each Board.

http://www.waterboards.ca.gov/waterboards_map.shtml

Central Coast RWQCB ??? Region 3

Q7. ELIGIBILITY

Does the application represent a single application from an IRWM Planning region approved in the RAP (see section II, Table 1 of the Planning PSP)?

Yes

If yes, include the name of the IRWM Planning region. If no, explain.

Santa Barbara County

Q8. ELIGIBILITY

Is the applicant a local agency or non-profit organization as described in Appendix B of the Guidelines?

Yes

If no, please explain.

Q9. ELIGIBILITY

List the urban water suppliers that will receive funding from the proposed grant. Those listed must submit self certification of compliance with California Water Code (CWC) §525 *et seq.* and Assembly Bill (AB) 1420 (see Attachment 6 of the Planning Grant PSP). If there are no urban water suppliers, so indicate.

Santa Barbara County Water Agency, the recipient of the funding, is not an urban water supplier so the self-certification for California Water Code (CWC) ??525 *et seq.* and Assembly Bill (AB) 1420 is not required. However, there are four urban water suppliers that will receive funds from the applicant to conduct two work plan tasks. Those urban water suppliers include the City of Santa Maria, Goleta Water District, City of Santa Barbara, and Carpinteria Valley Water District. This application contains required self-certification documents for those entities.

Q10. ELIGIBILITY

Have all of the urban water suppliers, listed in Q9 above, submitted complete 2005 Urban Water Management Plans (UWMP) to DWR? Have those plans been verified as complete by DWR? If not, explain. Will all of the urban water suppliers listed in Q9, along with any additional urban water suppliers that meet the urban water supplier definition threshold for the first time, submit updated 2010 UWMPs, consistent with the 2010 UWMP Guidebook and verified as complete by DWR, before the execution of a grant agreement? If not, explain.

Yes to all questions posed in Q10. Q11: January 16, 2013

Q12. COMPLETENESS CHECK

Have all of the fields in the application been completed?

Yes

If no, please explain.
